Children's Bible Memorization Book

Perhaps you have observed a preschool child reciting the words to his favorite book as he looks at the pictures. Wouldn't it be great to teach him scripture this same way? It is easy, using this book of various scripture verses. Simply point to a picture and read the accompanying verse to your child. The child will begin to memorize the verse as he hears it repetitively. Soon the picture will become a cue and he will love to "read" his Bible verse book. You may do this one verse at a time or by frequently reading the book all the way through. This method is not exclusively for preschoolers. People of any age can use this method. The pages of this booklet may be slipped into clear sheet protectors and inserted into a three ring binder. This will allow the child more freedom to use his Bible verse book at his leisure. Bible storybooks abound, but there is power in the Word of God. Let's hide the Word in their hearts, starting now!

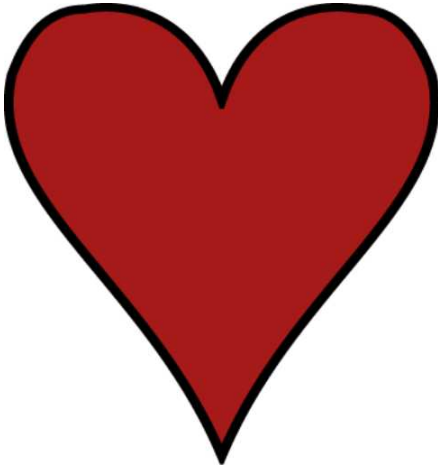

Although the King James version renders the greatest accuracy and majesty of literary form, preschoolers are more receptive to the language spoken in the home. For this reason the New King James has been used, as it most closely resembles the King James and retains most of its accuracy.
